16. *Payments from the Fund.*—The full amount standing to a subscriber's credit including his own and the Committee's contributions and the income derived therefrom shall be payable as follows :—

- (1) On the death of the subscriber to his nominee or heir under rule 20 (1).

 - (a) completed 15 years' service, or
 - (b) if employed on specific agreement for a term of years, has fulfilled his agreement, or
 - (c) established to the satisfaction of the Trustees that his retirement is necessitated by incapacity for further service.

17. A subscriber, who leaves the service of the Committee without fulfilling the condition of Rule 16, shall be entitled only to payment of his own accumulated subscriptions and income derived therefrom provided that the Trustees shall have absolute discretion to waive forfeiture of the subscriber's interest in the Committee's contributions and the income derived therefrom if this concession is in their opinion justified.

18. *Advances from the Fund.*—Advances from the amount standing to their credit on account of their own subscriptions may at the discretion of the Trustees be granted to subscribers in deserving cases of sickness or other urgent cause, for themselves, or for their families; such advances to be subsequently repaid by instalments to be fixed by the Trustees in each case with interest at such rate and payable at such times and whether simple or compound as the Trustees may direct.

19. A subscriber's account shall be closed—

- (1) when he dies, on the day after the date of his death,
- (2) when he quits the service of the Committee, from the day on which he quits it.

When a subscriber's account is closed, such amount, if any, as may be decided by the Trustees shall be added in respect to the portion of the year since the 31st day of March preceding.

Such declaration is revocable at any time during the subscriber's life time but a fresh declaration shall be operative only on being received by the Trustees. On a subscriber's marriage or re-marriage any declaration previously made will forthwith become null and void.

If a subscriber fail to make and maintain the required nomination the amount which would have been credited to his account on account of the Committee's contribution and income thereon shall lapse to the Fund, but the Trustees at their absolute discretion may make such payment in this respect to the deceased's widow or family as they may deem fit.

On the death of a subscriber the full amount standing to his credit shall be paid without deduction either to his nominee as provided or (if his nominee is a minor at the time such amount is payable) to the person for the time being appointed to receive such amount on behalf of the minor nominee irrespective of the period for which the subscriber has served but subject to any claim under Rule 12. In the event of no valid nomination being in existence the amount standing to the deceased subscriber's credit in columns 1 and 2 of the form prescribed in Rule 8 shall be paid to his legal heirs.

(ii) If the withdrawing subscriber be living he shall apply to the Trustees for payment of the amount to his credit. The Trustees shall thereupon decide the further amounts, if any, which are to be credited to the subscriber's account under these rules and shall cause payment to be made to the subscriber.

(iii) When payment of a subscriber's account to himself or to his nominee (or in cases where no valid nomination was in existence to his legal heir) has been accepted no further claim shall lie against the Fund nor shall the Trustees' decision as to the amounts credited to the subscriber's account be questioned.

21. Every servant who shall be or become a subscriber shall be subject to these rules and shall sign an agreement in the form annexed to these rules.

22. The Fund may be wound up under the following circumstances :—

MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College—

(a) "Regular," or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the provinces of Bihar and Orissa, Assam and Central Provinces, and those who come out of the Dacca or the Rangoon University as provided for in rule 5.

(b) "Military Class" (only students of European or Eurasian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular Class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry or any Examination equivalent to it.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe. Students who come out of the Dacca and the Rangoon Universities and the candidates from the Central Provinces should apply to the Director of Public Instruction of the respective provinces.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs. A.			
Admission fee	20 0
Fees for Summer term	62 8
Athletic Club fee	2 0
			Total	84 8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, one by the Government of Central Provinces and six candidates by the Inspector-General of Civil Hospitals of Assam, six candidates of the Dacca University by the Director of Public Instruction, Bengal, and two of the Rangoon University by the Director of Public Instruction, Burma. These candidates must possess the qualifications mentioned in rule 2(a). In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the winter term. They must also pay the annual Athletic Club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June :—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 14 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as Regular students.

20. The following are the curricula of the College :—

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 28TH APRIL 1924.

RESOLUTION No. 2400M.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1922-23.

1. **Number of municipalities.**—The number of municipalities rose from 116 to 117 owing to the establishment of a municipality at Rajbari in the district of Faridpur. The boundary of the Khulna municipality was extended so as to include the whole of the Khulna Railway yard of which only a portion was hitherto included. There was no alteration in the boundary of any other municipality. The name of the “Rampur Boalia” municipality has been changed to “Rajshahi” municipality.

2. Elections.—General elections were held in 20 municipalities as against 11 in the year preceding. They were generally very hotly contested and the number of civil suits and objections was higher than in the preceding year. At the election in Ward No. V of the Hooghly-Chinsura municipality excitement ran so high that the crowd became unmanagable and the election meeting broke up in confusion and a fresh election had to be held on a subsequent date. Two civil suits have been instituted by two of the defeated candidates of the Bally municipality for Wards I and IV, respectively. At Comilla objections were filed before the District Magistrate against all the elections but all of them were rejected after hearing. These were followed by five civil suits, four of which were rejected but one is still pending. Prayers for injunctions restraining the formation of the new Board were disallowed by the original and the appellate Courts. At Assansol where the elective system was first introduced during the year under report, all the seats were keenly contested. The elections in Wards III and IV gave rise to two contested civil suits. The suit in Ward No. III has been disposed of, the election of the successful candidate having been declared null and void. The other suit which aims at upsetting the whole of the election proceedings is still pending. It is regrettable that the dilatory procedure involved in civil suits arising out of municipal elections rendered the elective system completely nugatory in several cases. The civil suit in connection with the Dacca municipality referred to in last year's report was disposed of, the Court issuing a perpetual injunction restraining the elected candidate from sitting on the Board. An appeal has been filed and is still pending. In the case of the Manicktola municipality fresh elections in Wards II and III could not be held during the year under report as an appeal is still pending before the High Court against the decision of the Session Judge confirming the decree of the Lower Court, which set aside the elections held in 1919-20. The ballot system has worked satisfactorily everywhere with the solitary exception of Nabadwip where the Chairman was accused of gerrymandering and has since resigned.

3. Meetings.—Out of 2,360 meetings held during the year 266 either proved abortive or were adjourned. The failure was most marked at Birnagar where all the 14 meetings held failed. Jainagar where 5 out of the 13 meetings failed showed some improvement over last year but the result is yet far from satisfactory. At Suri and Katwa about one-fourth of the meetings failed. The Panihati municipality still holds the record for the largest number of meetings held, viz., 45 while the Commissioners of the Khirpai, Champdany, Debbhatta and Rajbari Municipalities failed to meet once a month. The attendance of Commissioners was on the whole fair. The highest percentage was 86.3 in the Kamarhati Municipality and the lowest 21.6 in Perojpur.

4. Ratepayers and Voters.—The total number of ratepayers was 328,789 against 327,239 in the preceding year, the percentage on the total population being 15.08. The highest percentage was 40.04 at Sherpur in the district of Bogra, the lowest being in the mill area at Titagarh with 3.1. There was an appreciable increase in the number of rate-payers at Baraset, Rajpur, Nabadwip and Tollygunge and also in eight municipalities in the Rajshahi Division. The increase at Nabadwip is said to be due to settlement of newcomers. This is a healthy sign of the growth of the town. On the other hand, there was decrease at Krishnagar, South Suburban and Jessore, owing to desertions. Rajshahi, Rangpur, Dinajpur and Pabna also report decrease, but no explanations have been given.

5. Assessment and Taxation.—The incidence of taxation shows a steady increase. It was Rs. 2-11-7 in the year 1920-21, Rs. 2-12-2 in 1921-22, and Rs. 2-14-0 during the current year. It is gratifying to find that the incidence of income shows the same upward tendency, the figures being Rs. 3-7-8 during 1920-21, Rs. 3-9-0 during 1921-22 and Rs. 3-11-7 during the current year. The maximum divisional average incidence of taxation was Rs. 3-11-3 in the

Burdwan Division and this is followed closely by the Rajshahi Division with Rs. 3-3-3. The average amount paid by each ratepayer in the Presidency was about Rs. 19-2-2 against Rs. 17-14-1 during the preceding year.

A general or partial revision of assessment was made in 69 municipalities while the revision made during the year under review will take effect from 1st April 1923 in three other towns. The revision produced an increase of over three lakhs of rupees in the municipal demand of the Presidency as a whole. The largest increases were obtained in the municipalities of Howrah (Rs. 1,83,765), Naihati (Rs. 27,570), and Tollygunge (Rs. 23,636). The revision of assessment in the Midnapore municipality made by an honorary assessor created much discontent among the ratepayers, many of whom filed complaints and in some cases combined not to pay the revised tax. The question of appointing an assessor under section 111 A of the Bengal Municipal Act to make a fresh revision is under the consideration of Government.

6. Collections.—There was a satisfactory increase of Rs. 3½ lakhs in collections, the percentage on the current demand rising from 94·3 to 95·2. In 35 municipalities the collections were equal to or in excess of the current demand and in 12 they were over 99 per cent. On the other hand, the ratio was under 85 per cent. in 10 municipalities, falling as low as 72 per cent. in Naihati. The low percentage at Naihati is ascribed to a large number of protests from the ratepayers against enhanced taxation and to the dispute with the Railway and the local jute mills. As in the previous year, Garulia and Nalchiti alone collected the full demand without any remission. The amount of remissions was practically the same as in the previous year and represented 3·6 per cent. of the current demand. The small municipalities of Satkhira and Budge-Budge remitted more than a quarter of their current demand while five others, viz., Taki, Jaynagar, South Dum-Dum, Naihati, and Bhola, remitted more than 10 per cent. The high remission in Budge-Budge was a result of the settlement of the dispute with the mills. In Taki and Naihati it was due to reduction of assessment granted on appeal. No explanation has been given for the high percentage of remission in other municipalities.

In the Presidency as a whole the balance outstanding at the close of the year amounted to Rs. 9,88,037 against 8½ lakhs in the previous year and Rs. 7,06,896 in the year 1920-21. The Minister for Local Self-Government regrets to observe that the accumulation of such heavy arrears reflects credit neither upon the municipal commissioners nor upon their executive. Howrah shows the largest balance outstanding, viz., Rs. 4,03,903, which is due to the general revision of assessment in Wards Nos. 4 and 8 being followed by appeals. The Chairman reports that of this large accumulation a sum of Rs. 1,57,542 has been realised since the close of the year. Other municipalities which had unduly large balances outstanding were Cossipur-Chitpur, Tollygunge, Budge-Budge, Hooghly-Chinsurah, Mymensingh, Dacca, Bally, Bankura and Chittagong. In the case of the first-named municipality the balance (Rs. 40,234) represents only 4·9 per cent. of the total demand. The balance in Tollygunge was due to delay in the disposal of appeals against the revised assessment and non-payment of taxes by the Eastern Bengal Railway and the Royal Calcutta Golf Club. The greater portion of the unrealised balance in Budge-Budge was due from the mills. The arrears in Hooghly-Chinsurah are reported to be due to the favour shown by municipal commissioners to their friends and relatives; in Mymensingh they were due to the non-disposal of petitions of objection against assessment. In other cases no satisfactory explanations have been furnished but the following remarks of the Commissioner of the Presidency Division would no doubt account for the heavy arrears in the majority of the cases :—

“Few of the municipalities comply with the provisions of their own account rules about the method of the realization of taxes. Generally warrants are not promptly issued and warrant fees are remitted—a direct encouragement to a person to pay his rates long after they are due.”

7. Income and Expenditure.—The total receipts including opening balances fell from Rs. 1,14,79,564 to Rs. 1,12,83,825, the decrease under the heads "Extraordinary and Debt," "Opening balances," and "Revenue derived from municipal property, etc.," counterbalancing the increase of about Rs. 5 lakhs in receipts from taxation and grants and contributions. Expenditure rose from Rs. 92,95,041 to Rs. 94,44,329, the largest increase being under the head "Extraordinary and Debt."

8. Closing balances.—The year closed with an aggregate balance of Rs. 18,39,496 as compared with Rs. 21,84,523 in 1921-22. About one-third of the municipalities closed the year with balances exceeding one quarter of the total expenditure. Six municipalities had closing balances of over a lakh, viz., Howrah (Rs. 2,93,445), Darjeeling (Rs. 1,98,471), Cossipore-Chitpur (Rs. 1,58,582), Maniktola (Rs. 1,13,894), Garden Reach (Rs. 1,10,700) and Dacca (Rs. 1,02,417). No explanation has been furnished for the large balance in Howrah, except that it includes a short-term deposit of Rs. 2 lakhs with the Imperial Bank of India. In other cases the major portion represents the unspent grants and loans received from Government and reserve funds for sanitary and other purposes. On the other hand, a number of municipalities failed to keep adequate working balances and in several cases they were insufficient to meet outstanding liabilities. In the case of Narayanganj, Muktagacha, Mymensingh, Baraset, Nabadwip, Jessore, and Debhatta the outstanding liabilities largely exceeded the closing balances. The worst offenders in this respect were Perojpur which had an outstanding liability of no less than Rs. 2,204 against an actual balance of Rs. 146 only, and Berhampore which closed the year with a sum of Rs. 3,595 only in hand but with liabilities exceeding Rs. 17,000.

9. Education.—The amount spent on education including the Government grant of Rs. 88,708 was Rs. 3,56,200 or about 4·4 per cent. of the municipal income as against 4·3 per cent. in the preceding year. The expenditure incurred by all municipalities on primary education showed an increase of over Rs. 20,000. Seventeen municipalities, however, or one in seven, failed to spend under this head 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand the percentage was over 5 per cent. in 46 municipalities and over 10 per cent. in twelve, including Nalchiti which devoted about two-thirds of its income to primary schools. None of the municipalities for which a scheme for improvement and expansion of primary education was drawn up by Mr. E. E. Biss, could make any appreciable progress towards its execution except South Suburban which started two primary schools in March 1922, and Kanchrapara which took steps for acquiring land for the proposed schools. The Cossipore-Chitpur municipality could not spend the Government grant of Rs. 20,000 towards its scheme as the proposal for the acquisition of land did not advance. There are at present no municipal schools in Darjeeling. The primary education scheme could not be carried out there for want of funds, except that a school building with attached quarters and out-houses was built at a cost of Rs. 66,764. The Scottish Mission have been allowed the use of the premises where they are holding Mission schools.

10. Water Supply.—The provision of a pure water supply is one of the greatest needs of Bengal towns, which, however, are unable to bear the expense of constructing water-works without large grants from Government. Of late years the amount which Government were able to contribute has been curtailed on account of financial stringency, and the execution of many useful schemes has consequently had to be deferred. A grant of Rs. 50,000 was, however, made towards the Raniganj water supply scheme and an equal amount was sanctioned for the Comilla municipality, where a start was made

with the much-needed water supply scheme. The supply of water at Dacca and Mymensingh was considerably improved by extending the street mains and erecting additional standposts. The scheme for the improvement and extension of the Bankura water works was sanctioned, Government agreeing to bear one-third of the cost. The well sunk to tap the supply of water, however, ended unexpectedly in a hard rock where the experimental borings had indicated the existence of yellow sand and the scheme had consequently to be altered. Schemes for the extension of the filtered water throughout the entire area of Naihati and to the Mahesh and Chatra wards of the Serampore municipality are now before Government. No material progress could be made with the water supply schemes of the Faridpur and Bally municipalities for want of funds, and the proposed improvements to the Chittagong water works had to be postponed for the same reason.

As usual, the suburban municipalities of Cossipur-Chitpur, Maniktola, Tollygunge, South Suburban, and Garden Reach were supplied with water from the Calcutta mains while several other municipalities in the Presidency Division got their supply from the local mill filters. A sum of Rs. 4,732 was spent by the Garden Reach municipality for sinking a tube-well and purchasing an oil engine and pump for augmenting the existing supply. The Minister for Local Self-Government considers this to be a move in the right direction and hopes that other municipalities will follow the example. The Eastern Bengal Railway authorities supplied filtered water to portions of Wards I, II and IV of the Kanchrapara municipality and the municipal commissioners expect to supply the remaining area from a large tube-well recently constructed by the Railway. The Berhampore water works were in a deplorable condition and in need of many urgent improvements while the water-rate fund had heavy liabilities to clear up. The inability of the municipal commissioners to make these improvements out of their increased revenue derived from the revision of assessment was brought to the notice of Government and a special grant of Rs. 10,000 was made from provincial revenues after the close of the year on condition that the municipality should take a loan of the same amount to clear the liabilities and temporarily transfer the management of the water works to the Public Health Department of Government. Baruipur constructed six more tube-wells and Budge-Budge re-excavated a reserved tank. An experimental bore hole was sunk at Patuakhali to a depth of 450 ft., but as the water proved to be saline and unfit for drinking, it was decided to sink the bore hole to a further depth of 150 ft. at a cost of Rs. 7,200 half of which will be contributed by Government. A trial boring was also carried out at Pabna with the aid of Government and District Board grants. Bogra had a two-inch tube-well installed in the town. Tube-wells furnish a generally reliable and a comparatively cheap source of water supply, and the Minister for Local Self-Government desires that where trial borings prove a success, this method of water-supply will be extensively adopted, particularly by small municipalities which cannot afford a more expensive system of water-works.

In some municipalities the water supply is obtained from tanks; where this is the case it is clear that the commissioners should be more vigilant and active in their measures to reserve the tanks against pollution.

11. **Drainage.**—Minor works were carried out at Asansol, Jessore, Madaripur, Jhalakati, Patuakhali, Bhola, Bogra, Comilla, Chandpur and Chittagong. At Darjeeling particular attention is paid to surface drainage which is brought down by means of graded surfaces to road-side drains and is delivered therefrom to streams or *jhoras*. The new method of flushing by tippers proved satisfactory. In Kurseong, the removal of the main galley pit constructed on certain drains stopped the nuisance which was reported last year. The drainage scheme for Ward No. 1 of the Krishnagar municipality was kept in abeyance for want of funds and that for the Basirhat municipality was not sanctioned as Government were not in a position to make a grant. The supplementary scheme for the English Bazar municipality was pending with the Executive Engineer, Public Health Department.

12. Conservancy.—The total conservancy charges during the year amounted to Rs. 21 lakhs which was about Rs. 5 lakhs in excess of the receipts from latrine fees.

The sewerage scheme for Dacca was in progress and that for the Titagarh municipality was sanctioned after the close of the year. The Kamarhati and Bhatpara sewerage schemes were under consideration while that for Naihati was held in abeyance for want of funds.

13. Public Health.—The Minister observes with satisfaction that the municipalities have been taking an increasing interest in matters relating to Public Health. Measures for the improvement of sanitation were taken up in many towns by filling up, cleansing or disinfecting insanitary tanks, ditches and *dobas* and removing jungles and noxious vegetation. Notices were also issued on the owners of insanitary tanks requiring them to have these filled up or re-excavated. In Maniktola alone the owners were persuaded to fill up no less than 26 tanks. In Cossipur-Chitpur 22 insanitary tanks were filled up by their owners. In Baranagar two tanks were filled up and four were re-excavated. In Sherpur 10 insanitary ditches were filled up and four tanks were re-excavated by their owners. In Murshidabad all municipal wells were dewatered and cleared of silt. The municipality also completed the construction of the Gobardhan Nullah drain with a Government contribution of Rs. 2,000. In Bhatpara about 40 bighas of the Kamarhati bustee was raised and the filling up of borrow-pits in about four bighas of land was in progress. In Brahmanbaria an insanitary plot of land was acquired and improved by filling up ditches and drains and by excavating two tanks.

Preventive measures were undertaken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed and special doctors were appointed where necessary. Unwholesome food-stuffs were either destroyed or removed from the local bazars, and persons selling such articles were prosecuted. The Baranagar municipality instituted 35 prosecutions under section 6 of the Bengal Food Adulteration Act, all of which resulted in conviction. In Jessore the Sanitary Inspector regularly inspected food-stuffs and detected some cases of adulterated ghee. Four prosecutions were started which ended in conviction. In the Kotechandpur municipality the sale of confectionary articles and fish was controlled under the supervision of the Municipal Health Officer. At Dacca a considerable quantity of unwholesome food-stuffs was destroyed. Some of the municipalities arranged lantern lectures and distributed health leaflets throughout their areas for the purpose of educating the people on sanitation and public health.

Effective steps were taken to prevent the spread of cholera which broke out in several municipalities. In the district of Bankura all the municipalities followed the instructions issued by the Director of Public Health on the subject. When an outbreak occurred people were warned against using the water of suspected tanks and wells. Other tanks were guarded against pollution. In Bankura and Vishnupur a stock of disinfectants was kept for free distribution. The Bankura municipality treated the indigent cholera patients free of charge.

In the Murshidabad municipality public and private wells were periodically disinfected with permanganate of potash and chlorogen, and public drains were regularly flushed with phenyle and chloride of lime. At Khulna, during a widespread epidemic of cholera, the town was saved from contamination by timely measures of prevention, such as disinfections of tanks and houses, and the distribution of health leaflets. Small-pox broke out in epidemic form at Berhampore and Rajshahi, but timely action of the Commissioners prevented any serious extension of the epidemics.

Stringent measures were taken up by a large number of municipalities to vaccinate and re-vaccinate children and primary and secondary vaccinations were in most cases given free of charge. Many of the municipalities employed permanent vaccinators for the purpose.

The intensity of malarial fever was checked in many municipalities by filling up and disinfecting insanitary tanks, etc. As an anti-malarial measure quinine and cinchona febrifuge were also freely distributed by many municipalities. Influenza tabloids were also distributed free to the poor by many municipalities.

Except for comparatively slight outbreaks of relapsing fever, the town of Darjeeling was free from epidemic diseases. Influenza became endemic and was responsible for one-seventh of the total mortality. Serious overcrowding and lack of sanitary dwellings in certain areas of the town gave rise to a high percentage of deaths from tubercular disease, and phthisis accounted for 14·3 per cent. of the total mortality. Except for a short-lived outbreak of influenza at the beginning of the year, the health of the town of Kurseong was, on the whole, fairly good.

In Chittagong and Barisal there were no Health Officers and the public health work was managed by the Sanitary Inspectors; the appointment of Health Officers, which is a statutory obligation, was insisted upon the Municipal Commissioners. At Berhampore a Health Officer was appointed towards the close of the year.

By-laws were framed by a number of municipalities for the eradication of the water-hyacinth, and notices under section 200 of the Bengal Municipal Act were issued by some of them for the removal of this pest from tanks and waterways.

14. Public Works.—The percentage of the outlay on public works to the total expenditure varied in the smaller towns from 1·3 in Katwa to 52·08 in Kharar and in larger municipalities from 4·6 in Serampore to 40·8 in the South Suburban municipality.

The Baranagar municipality expended Rs. 22,894 in the construction of its Office building in a part of which a local library is proposed to be located.

15. Loans.—Loans amounting to Rs. 1,35,001 were granted to five municipalities, viz., Burdwan (Rs. 30,000), Raniganj (Rs. 50,000), Howrah (Rs. 36,334), Dacca (Rs. 15,000), and Faridpur (Rs. 3,667). Altogether 43 municipalities were in debt to Government, their total liabilities amounting to more than Rs. 39 lakhs. South Suburban, Birnagar and Bhola fully liquidated their loans.

16. Audit of Accounts and Embezzlements.—The accounts of almost all municipalities except Gobardanga were audited during the year. Embezzlement or misappropriation of municipal money occurred in Bankura, Hooghly-Chinsura, Maniktola and Baraset. The amounts misappropriated, which are not reported in all cases, were, however, realised from the culprits and the officers concerned were dismissed. The longstanding question of embezzlement of hackney-carriage fees of the Rajshahi municipality, which dates back to 1919, was brought to a final decision after the close of the year with the result that the hackney-carriage inspector was discharged and the officiating tax daroga was transferred to a less responsible post.

The municipal authorities of Comilla took prompt and suitable action in remedying the defects and irregularities pointed out by the Examiner of Local Accounts. Unfortunately, however, little attention is generally paid by municipalities to audit reports. The Minister takes this opportunity of pointing out to municipal bodies the fact that these audits are intended for the assistance of the local authorities themselves and that specific defects and irregularities are brought to light not in a spirit of captious criticism, but with a view to suggesting necessary steps being taken for having them remedied.

17. General Remarks—Burdwan Division: Howrah.—The total ordinary income of the municipality fell from Rs. 15,99,554 to Rs. 15,92,551. The decrease is mainly attributed to the fall of receipt under the Fire Brigade Act and to the non-receipt of any contribution from the public for any improvement work. Expenditure rose from Rs. 12,62,192 to Rs. 14,00,148 mainly on account of increased outlay under the heads "Water Supply," "Roads" and "Conservancy." There was a revision of assessment in wards 4 and 8. The current demand on account of municipal taxes rose from Rs. 14,91,245 to Rs. 16,70,330. The financial position of the municipality has improved within recent years.

The duties of cleansing the roads, drains and privies in the town was, as before, vested in the Ward Committees. Both the Chairman and the Commissioner of the Division complain of their inadequate supervision and of want of sympathy and co-ordination with the central municipal authorities. The question of the disposal of street sweepings is getting more acute year by year owing to the difficulty in finding dumping grounds. The road watering arrangement of the town has been greatly improved; in addition to 21 road-watering carts, two road-watering lorries were purchased.

The expenditure under "Public instruction" shows a slight falling off. The scheme prepared by Mr. Biss for the advancement and extension of primary education could not be taken up as it involved the imposition of additional taxation. The Municipal Commissioners, however, decided to take up four of the existing primary schools and to make education free in them.

The health of the town has improved during the last three years, the birth-rate is steadily increasing, the figures for the last 3 years being 20·20, 22·06 and 25·48 per mille, respectively, while the number of deaths has gradually decreased since 1920-21. There were no epidemic diseases during the year. To remove infantile mortality four qualified midwives were appointed under the supervision of the Health Officer.

The municipality of Burdwan was administered with great efficiency. A scheme for replacing the worn out engines and boilers at an estimated cost of Rs. 1,30,000 was taken up during the year and considerable progress made. Kalna was at one time notoriously unhealthy, but during the last 10 or 15 years it has improved in respect of malaria, though typhoid and kala-azar have become prevalent. The system of treatment of kala-azar by antimony injections, which was introduced by Dr. Muir in the Scottish Mission Hospital, was continued. The success obtained from this method of treatment has led to an influx of patients from other places, and it is to this circumstance that the Municipal Commissioners attribute the spread of the disease among the permanent residents of the town. The crying need of the town of Katwa is filtered water, but the municipality is making no provision for a supply. The first elected Municipal Board of Asansol has been formed and it is hoped that the affairs of this municipality will now rapidly improve. The finances of the Midnapore municipality continued to be unsatisfactory. The water-works scheme of the municipality was hung up for inadequacy of funds, but steps are now being taken for completing an important part of the scheme. At Chandrakona dissension and party feeling prevented any useful work being done.

The District Magistrate of Hooghly is of opinion that the two largest municipalities, viz., the Hooghly-Chinsura and Serampore are the worst managed. The finances of the former show some slight improvement, but the outstanding balance being still so high as Rs. 21,000, the improvement is purely nominal and is unaccompanied by better work in other departments.

of the municipality. For want of continuous supervision over the collecting staff, collections are neglected and arrears allowed to accumulate. Other branches of administration have also suffered and the people are reported to be growing dissatisfied with the present management of the municipality. The Serampore municipality was faced with bankruptcy which has been averted by the recent assessment which will add 25 per cent. to its income. Party faction was noticeable in Kotrung. Much improvement has been effected in the Bansberia municipality by the construction of a mill in Ward No. I and by the clearance of jungle by another mill in Ward No. III. The general health and sanitation of Baidyabati has improved, but the municipality is notorious for party factions. The collections in Campdany were very satisfactory:

18. Presidency Division.—Mr. Prentice, the late Magistrate of the 24-Parganas, remarks as follows :—

“ There continue to be too many municipalities whose administration falls far below what it ought to be. Panihati, Tollygunge, Rajpur, Basirhat, Joynagar and Baduria are all bad, and there are some others which might easily be better than they are. In places like Joynagar the Municipal Commissioners decline to enforce any of the much-needed improvements because private interests will thereby be affected and zamindars and others are not ashamed to derive income from markets which are insanitary. The scheme for a railway market at Kanchrapara still hangs fire and no progress has been made with the project for a municipal market in Bhatpara. No great progress appears anywhere in jungle-cutting or filling up insanitary *dobas* and there is a general want of vital civic co-operation. Rate-payers do not keep their own holdings clear.”

The municipal administration in the district of Murshidabad was fairly well managed as far as municipal funds permitted, and the health of municipal towns was generally good. The standards of collection in the Khulna municipality were again high, and freedom from epidemic disease enjoyed by the town was attributed to good administration. On the other hand, the work of the small municipality at Debhata was extremely unsatisfactory. When the District Magistrate inspected it on the 23rd March 1923, it had carried out only three-eighths of the budgeted expenditure, had spent only one rupee out of a budgeted capital outlay on drains of Rs. 100, and had been without a sweeper throughout January and February. Its standards, traditionally low, were further depressed during the year by local class feuds. A general election was set aside, and a second election which was held resulted in the unseating of the *bhadralog* class.

The Commissioner of the Division observes :—“ The few good municipalities do excellent work considering the very limited means at their disposal, but there are a large number which have in no way fulfilled the hopes of their founders. In many places the Commissioners have yet to learn the great responsibility involved by their position not only in spending carefully the money for the ratepayers but also in realising their dues promptly.”

19. Dacca Division.—The state of affairs in the Dacca municipality is unsatisfactory. The latrine service is indifferent, the water-supply is deficient, and the conditions of the roads leave much to be desired. The revaluation was long overdue and the successive bodies of Commissioners who omitted to have the town revalued are partly to blame for the present discomforts of the ratepayers. The present Commissioners have at last made a general revaluation. In this connection the Divisional Commissioner observes as follows :—

“ The Municipal Commissioners of Dacca are to be congratulated on reducing the outstanding balance of taxes from Rs. 51,524 to Rs. 24,010 and on

at last making a general revaluation. There is an insistent demand for improved services of every kind, but the Chairman has shown that without more money not only will it be impossible to meet it, but it will be impossible even to maintain the existing services at their present level of efficiency. Already the maintenance of roads is being starved, and the Municipal Commissioners have had for lack of funds to decline a generous offer by Government in aid of female education. It is to be hoped that the ratepayers will in their own interests, withdraw their opposition to a most necessary measure which should have been taken years ago."

There was a marked deterioration in the administration of the Mymensingh municipality. The outstanding taxes have increased from Rs. 30,255 to Rs. 39,109, and unpaid bills from Rs. 19,325 to Rs. 33,778, while the closing balance has fallen from Rs. 29,212 to Rs. 16,895. The water-works plant is being subjected to a dangerous strain whilst, owing to the waste of water through unmetred house connections, the bulk of the ratepayers are getting an inadequate supply. Of the rural municipalities, Muktagacha still has unpaid bills to the amount of nearly half of its current demand, while Nalchiti managed to collect its whole demand. Municipal affairs in Sherpur are not likely to be administered smoothly or satisfactorily until the municipality ceases to be used as a tool to further the rivalries of the zamindars.

20. Chitttgong Division.—The Cox's Bazar municipality had to face a cyclone in April 1922, but in spite of its limited income it is reported to be doing satisfactory work. The financial condition of the Chittagong municipality is unsatisfactory, but the new Board have been doing their best to improve matters. The income of the Comilla municipality increased by about Rs. 2,000 owing to partial revision of assessment and expenditure was reduced in some departments without impairing efficiency. Noakhali was still under erosion of the river. A new road was constructed in the extended area of Sonapur where some temporary quarters have been erected for officers, while some roads in the interior of the town were raised for protecting the locality from flood water.

21. Rajshahi Division.—The Darjeeling municipality has maintained its reputation as a progressive municipality run on modern lines. The new municipal executive of the Rajshahi municipality has shown commendable energy in tackling the problem left by the old board. Most of the other municipalities have carried on their routine duties fairly well, but cannot hope to show really satisfactory results until they materially increase their income. The incidence of taxation in most of them is at present extremely low.

22. Conclusion.—The year under review has not seen any very marked improvement in the general level of municipal administration, which continues to be hampered by a lack of funds. The incidence of taxation is still very low in many municipalities. If the local authorities are not content to stand still, but are genuinely anxious to improve the amenities of civic life, they must be prepared to resort to higher taxation. The Minister is glad to notice that a lead has been given in this direction by some municipalities which have increased the rates and revised their assessment in a stringent manner.

One of the weakest features of municipal administration is the marked disinclination of the municipal executive to enforce the rules regarding the prompt and timely realisation of municipal taxes through the summary procedure; the timely issue of distress warrants and the regular realisation of warrant fees. Fear of unpopularity with the general body of ratepayers obviously lies at the root of this weakness, but it cannot be too strongly impressed upon the municipal boards and their Executive officers that timely collection of municipal dues is the first and basic condition of efficiency in municipal administration.

The present Municipal Act has been in force for nearly forty years, and though still wide enough in its scope to meet the needs of many towns, it naturally fails to provide the wider range and scope which legislation in recent years has given to municipal administration in all parts of the world. To remedy this defect and to remove certain legal difficulties which the working of the present Act has revealed, a consolidated Municipal Bill was introduced in the local Council in August last. It not only provides for increased independence to municipalities by the devolution of functions and powers from the State and by the relaxation of internal control, but it aims at supplementing the present law by conferring ample powers to increase taxation, to enforce the improvement of insanitary buildings and areas, to prevent and control epidemic diseases, to regulate the sale of food-stuffs, to improve the registration of vital statistics, and to encourage the expansion of primary education. The adoption of this Bill into the Statute Book will, it is hoped, open up wide possibilities of municipal progress.

**RESOLUTION ON THE REPORT ON THE OPERATIONS OF THE DEPARTMENT
OF AGRICULTURE FOR THE YEAR 1922-23.**

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Agriculture.

DARJEELING, THE 30TH APRIL 1924.

RESOLUTION—No. 137T.—A.I.

Minister in charge : The Hon'ble Hadji Mr. Abdul Karim Abu Ahmed Khan Ghuznavi.

READ—

The Report of the Department of Agriculture, Bengal, for the year 1922-23.

Mr. G. Evans held charge of the department till 16th October 1922, when he went on leave preparatory to retirement. Mr. R. S. Finlow officiated as Director for the rest of the year. Mr. K. McLean, Deputy Director of Agriculture, was appointed to act as Fibre Expert to the Government of Bengal. Mr. F. Smith, Deputy Director of Agriculture, proceeded on leave for fifteen months from the 27th November 1922. Two new posts of Deputy Director of Agriculture were sanctioned by the Secretary of State at the close of the preceding year, but it was not possible to fill them permanently for want of suitable recruits. It has since been decided not to fill the posts for the present as, until the number of farms in working order increases, the staff of three Deputy Directors appears to be sufficient for the needs of the department. Mr. M. Carbery continued as Agricultural Chemist, and Messrs. G. P. Hector and Dwijadas Datta as first and second Economic Botanists, respectively, throughout the year.

2. Although the decisions of Government on the recommendations of the Bengal Retrenchment Committee relating to the Agricultural Department were taken after the close of the year under report, it is necessary to indicate the policy underlying these decisions to remove misapprehension. As regards the demonstration and propaganda branch of work of the department for which a large subordinate staff of District Agricultural Officers and demonstrators were employed under the Superintendents of Agriculture in charge of divisions, it has been definitely decided that the work of demonstration should radiate from the district agricultural farms where the necessary technical staff of District Agricultural Officers and demonstrators will exist, whilst propaganda, so far as it is non-technical, should be carried out with the assistance of the District Officer and his staff, the staff of the Co-operative department and the Agricultural Associations. The district and departmental staff will in the course of their ordinary duties in the mufassal draw the attention of the cultivators to the improvements effected by the agricultural department and induce them to get into touch with the farms. It will then rest with the technical staff at the farms to demonstrate the improvements of crops, seeds, manures, implements, methods, etc.

Next to research and the research stations, the district agricultural farms, therefore, occupy an important place in the organisation of the department. Whilst, however, the functions of these farms must necessarily include experiment as well as demonstration, it is also fundamental that, if they are to convince people, some portion of each farm must be run as an economic proposition to bring home to the public that agriculture on the lines recommended by the department can be made to pay. A decision to this effect has accordingly been taken by the department.

As a corollary to the policy of concentrating the activities of the department around the farms the Government of Bengal in the Ministry of Agriculture and Public Works have also accepted the principle of the recommendation of the Bengal Retrenchment Committee that the maintenance of seed stores

and the distribution of seeds are matters not of agriculture but of organisation. Orders have accordingly been issued for the abolition of seed stores outside the farms.

3. Of the 19 Bengal students in the second year class of the Sabour Agricultural College which closed at the end of the session 1922-23, 18 passed the final examination. The number of students on the roll in each of the Secondary Agricultural Schools at Dacca and Chinsura was 16 in the first year class, while there were 20 and 17 students on the roll in the second year class in the respective schools. Eleven students passed the final examination in the Dacca School and 14 in the Chinsura School. The Government of Bengal (Ministry of Agriculture and Public Works) have since on the recommendation of the Bengal Retrenchment Committee decided to close the Chinsura School, since it appears that full advantage has not been taken of the facilities offered by the school.

The scheme for agricultural education referred to in the resolution recorded on the report for the year 1921-22 was not proceeded with as there was no likelihood of funds being obtainable. For similar reasons the proposed Agricultural Institute at Dacca was not proceeded with. This is not to say that the Agricultural Department and the Government of Bengal have lost sight of the importance of agricultural education either in its more elementary form as at schools such as the report mentions as existing in Amarpur (Burdwan) and Durgapur (Chittagong) or Dacca, or in its more advanced form as contemplated in the proposed Agricultural Institute at Dacca, and it is to be hoped that it will be possible to take up these questions in the near future. Mere theoretical training will not commend itself, and any scheme of agricultural education to prove acceptable must be such as to direct students back to the land and the practical pursuit of a profession on lines which it will first be proved are profitable.

4. Satisfactory progress continued to be made in the research side of the department. The evolution of improved races of jute and the reaffirmation of the values of previous discoveries in regard to jute, some of which had begun to be challenged, naturally received special attention, but investigations were also carried out in hemp, flax and other fibres. At present D. 154 is the standard departmental race of *C. capsularis* and the best yielder. Two other races D. 27 and 39X, a hybrid, are also under trial. Over 600 single plant cultures of *C. capsularis* were made during the year with the object of improving on D. 154. Work on *chlorosis* in jute in collaboration with the Economic Botanist was continued. Results obtained by crossing *chlorotic* with non-*chlorotic* races of *C. capsularis* have so far indicated that the *chlorotic* tendency is more extensively inherited through the female than the male plant.

The question of the superiority of departmental races of jute in fibre and spinning qualities over local races came under discussion with the trade during the year. Arrangements have been made for the conduct during the present year of a series of field tests in the Eastern and Northern Bengal districts with the departmental races of R. 85 and D. 154 and *Funduk*, a variety which is believed to be of a very high quality by the trade. The Bengal Chamber of Commerce has nominated a committee to co-operate with the department in these matters and to advise it in regard to the requirements of the trade. The Government of Bengal (Ministry of Agriculture and Public Works) are gratified to notice the interest which the departmental races of jute have roused, and will await the result of the field test undertaken by the department.

The report of the Committee appointed to devise ways and means to eradicate water-hyacinth was received and considered during the year. The Committee were unable to come to a unanimous conclusion on the important question of the measures to be taken for the eradication of the weed. They failed also to reach a unanimity about the efficacy of the spray, demonstrations of which were given by its inventor, Mr. T. S. Griffiths. The experiments conducted on a small scale at Dacca under the supervision of the experts of the department afforded grounds for the belief that the fluid used by Mr. Griffiths, although harmless to human

beings and animals, resulted on application in the destruction of the water-hyacinth. As the Government of Bengal were of opinion that no possibility of securing an efficacious means of dealing with the pest should be neglected they decided to follow up their previous experiments and to endeavour to obtain some conclusive result. Communications were accordingly addressed to Mr. Griffiths as a result of which he offered the use of his spray to this Government for a period of three years for a payment of £1,500 with the option to purchase all rights in it in Bengal for a further payment of £6,000 at the end of three years if this Government were fully satisfied with their experiments during that period. The Government of Bengal (Ministry of Agriculture and Public Works) are satisfied that the offer is reasonable and have accepted it.

5. As usual, rice continued to receive particular attention in the Botanical Section, though minor investigations were also carried out in cotton, pulses and oil seeds. Varietal tests in a record season at Dacca and in an unfavourable season at Chinsura have again proved the superiority of *Indrasail* and *Dudskar* paddy, whilst *Kataktara* is still without a rival in Eastern and Northern Bengal as a high land broadcast *Aus* rice.

Amongst *Rabi* crops a number of pure races of *Matikalai* with promising qualities have been selected.

The Second Economic Botanist is in charge of the investigations into cotton, deep-water paddy, pulses and oil seeds.

The cotton survey of the province is still being conducted. It is estimated that the total area under cotton in Bengal is 60,000 acres, of which 5,000 acres are ordinary cotton and the remainder is *Comillas*. It is interesting, even if it may not prove to be important, that types of cotton answering Roxburgh's description of Dacca muslin cotton have been discovered at Dewanganj (Mymensingh) and Rangpur.

6. In the Chemical section special attention was given to sugarcane, date-sugar and tobacco. Although the drought in the early part of the year proved disastrous to the sugarcane crop it was not without its lesson, as it demonstrated the exceptional drought-resisting capacity of the departmental race of *Tanna*. Two other new Coimbatore hybrid races, viz., Madras Nos. C.213 and C.214, have also been found to be good resisters of drought. They also promise to tiller better and to yield a purer juice. Experiments have shown that high glucose content of the juice of sugarcane grown on the red laterite soil of Dacca is due to the soil's deficiency in lime as well as to the lack of moisture which was hitherto believed to be the chief cause.

Manurial experiments with tobacco indicate that groundnut cake and fish manures yield good results.

7. Gratifying progress has been made with the programme of evolving an improved breed of cattle at the cattle-breeding station, Rangpur. The process of selection of cows has resulted in a marked improvement in their yield of milk so that the minimum standard of milk yield per lactation period of 300 days has been raised from 500 lbs. in 1920 to 1,500 lbs. in 1923. To-day the best cows at Rangpur are giving about 4,000 lbs. of milk per lactation. Attention is also being given to producing in larger numbers bulls of good stature and belonging to good milking strain. The object is distribution amongst owners of cows, for it has been proved at Pusa that it is through the sire that the milking strain passes. Selection work with the herd of Sindhi cattle at the Dacca Farm is in progress. The problem of cattle fodder which has an important bearing on the improvement of cattle has also been engaging the attention of the department. Numerous fodder-crops, both indigenous and exotic, are being tested with a view to ascertaining their value and giving the public the benefit of the results.

8. During the year an Agricultural Engineer with a small staff was employed with the object of executing minor irrigation schemes for the improvement of agriculture in the Bankura, Birbhum and Midnapore districts. Apart from schemes under the Bengal Agricultural and Sanitary Improvement Act, 1920, there was a large number of co-operative irrigation schemes in the Bankura and Birbhum districts which called for the special attention of the Agricultural Engineer. Besides irrigation work a number of applications were received for the drainage or re-excavation of *khangals* connecting

rivers and *bhaels* under the Bengal Agricultural and Sanitary Improvement Act. It is hoped that if advantage is largely taken of the provisions of the Act much benefit from the sanitary as well as the agricultural point of view will result.

9. As already indicated agricultural associations play an important part as a link between the department and the raiyats. They also afford a real test of the interest taken by the public in the welfare of the agricultural population. Noteworthy among these associations are those of Nadia, Birbhum, 24-Parganas, Pabna and Rangpur. Agricultural associations run on co-operative lines have great possibilities and the distinguishing merit of self-help. In Pabna an innovation has been made in the establishment of agricultural co-operative societies with small areas for the demonstration of improvements and the production of seed of departmentally selected crops. A further experiment in collaboration with the co-operative department is the proposed establishment of societies for the purchase and sale of jute seed with the object of developing reliable private agencies for the propagation of improved seed under the expert advice of the Agricultural Department.

10. Mr. P. C. Chaudhury, Deputy Director of Sericulture, Bengal, assisted by two Superintendents was in charge of seed cocoon production during the year. Miss Cleghorn also continued to work at Alipore. The total receipts from the nurseries amounted to Rs. 61,188 against Rs. 79,381 and the expenditure to Rs. 1,81,254 against Rs. 1,62,460 in the preceding year. It is, of course, not to be expected that the receipts should cover all the expenditure, since the object is to revive the industry by popularising disease-free seed. The falling off in receipts is, however, unfortunate. The receipts should go on increasing until the loss to Government becomes very much less than at present. The falling off is attributed to the shortage in cocoon production resulting from abnormal weather conditions such as drought, flood, etc., as well as to the heavy budget curtailment at the end of the year which necessitated the practical abandonment of the *Maghi* programme. Nevertheless, there was a marked advance in placing the work of this section on a sounder basis than before. It has now been definitely decided that in present circumstances hybridization should be abandoned as unlikely to produce good results. Results of manurial experiments too indicate that the yield of leaf is capable of a large increase, and formalin, which is at present used as a disinfectant, is being tentatively replaced by a substance called "E.C." invented by Mr. Hutchinson, the Imperial Bacteriologist. "E. C." has been found to be far more powerful and also less costly than formalin. The multiplication and distribution of disease-free seeds are still the main items in the programme of the Sericultural Department, and the encouragement of selected rearers to produce seeds under departmental supervision is so far shown to be sound. The Bengal Silk Committee was reconstituted at the close of the year so as to secure the representation of the silk trade, both European and Indian, and the cocoon rearers and silk reelers in that body, but so far no meeting of the Committee has taken place.

11. The Hon'ble Minister has much pleasure in acknowledging the services of Mr. Finlow, Officiating Director, for his administration of the department during the year. His acknowledgments are also due to the other officers of the department whose services Mr. Finlow has brought to notice. The Hon'ble Minister also takes this opportunity of placing on record his high appreciation of the assistance rendered by Mr. G. S. Dutt, I.C.S., and Rai A. C. Banerjee Bahadur in the agricultural development of the Bankura and Birbhum districts.

CIRCULAR ORDER No. 5 of 1924.

CRIMINAL.

It having been brought to the notice of the High Court that considerable inconvenience is caused to the Government Telegraph Check Office, Calcutta, in consequence of clerks attached thereto being summoned from time to time by criminal courts to attend those Courts to produce draft messages and to give evidence in cases in which draft messages are required for examination, the following instructions are issued for the guidance of the subordinate criminal courts.

(a) Section 95 of the Code of Criminal Procedure lays down the procedure in regard to the production of Post office or Telegraph office records before courts of criminal jurisdiction. Sub-section (3) of section 95 of the Code expressly exempts letters, telegrams and parcels in the custody of the Postal or Telegraph authorities from the operation of sub-sections (1) and (2) of section 95. The intention of this section appears to be that an officer should be appointed by the court concerned to the office where such letter or telegram may be, and that the Postal or Telegraph authorities should be directed to make over the document to the officer so deputed, who will then be in a position to prove that the document was produced from the custody of the Postal or Telegraph authorities.

(b) The attendance of Telegraph clerks should be required only if they are in a position to prove the handwriting of the message or otherwise identify the writer or person who handed it in for transmission or to material evidence on other relevant matters which cannot be proved from other sources.

(SURPLUS STORES.)

Simla, the 24th April 1924.

RESOLUTION.

The work connected with the disposal of surplus stores on behalf of His Majesty's Government (Disposal and Liquidation Commission) is now being closed down. The work was started in 1919 by the establishment of an organization for the disposal of surplus textile stores, and the organization was expanded from time to time to meet changing requirements, until it eventually comprised a staff which dealt with the disposal not only of textiles but of engineering stores, medical stores, food-stuffs, and numerous other stores of a miscellaneous character. Three main depôts for the sale of stores were established, namely at Bombay, Calcutta and Lahore; each of these depôts was in charge of a Controller of Sales under the authority of the Chief Controller (Surplus Stores); the Controllers of Sales and their staffs were assisted by Sales Committees, composed of non-official gentlemen who assisted the Controllers with their advice in the pricing of the stores, and in the methods of disposal. In regard to textile piece-goods and yarn, Mr. N. B. Saklatwala, C.I.E., of Messrs. Tata Sons, Limited, acted as Honorary Adviser to the Surplus Stores Organization from its commencement in 1919 until April 1922, when the disposal of textiles had so advanced, and the work in which his assistance was required had so diminished, that, on Mr. Saklatwala's own suggestion, he was relieved of his duties. The total sales effected at the three centres realized a sum of over eight crores of rupees.

2. Now that the work has been completed and the depôts have been closed, the Government of India desire to place on record their acknowledgment of the valuable help rendered by the non-official gentlemen, who placed their services at the disposal of Government, and the public spirit with which they devoted so much of their time to the work. They desire in particular to convey their appreciation of the assistance rendered by Mr. Saklatwala in the disposal of textile stores, and by the non-official gentlemen named below who served on the Sales Committees for a prolonged period:—

J. T. Fry, Esq.	}	Bombay.
G. E. R. Slade, Esq.		
Lalji Narainjee, Esq.		
Dr. R. W. Clayton, M.B.B.S., D.P.H.		
H. D. Lees, Esq.		
W. Kinloch, Esq.	}	Calcutta.
Lt.-Col. W. G. Burn, O.B.E.		
J. A. Simpson, Esq.		
A. P. Gordon, Esq.		
F. Bliok, Esq.		
D. Orr, Esq.		
S. G. Elton, Esq.		
R. Hall, Esq.	}	Lahore.
The Hon'ble Rai Bahadur Ram Saran Dass, C.I.E.		
A. E. Paul, Esq., B.A., A.M.I.C.E.		
Rai Bahadur Milkhi Ram, C.I.E.		
P. Ross-Redding, Esq.		
J. Rustonji, Esq.		

They also wish to acknowledge the valuable help rendered by Colonel G. H. Willis, C.I.E., M.V.O., R.E., M.I.M.R., Master of the Mint, Bombay, who was for a long time Chairman of the Sales Committee in that centre.

3. The initial organisation of the operations connected with the sale of surplus stores was effected by Sir Ernest Low, K.C.I.E., who held the office of Chief Controller till January 1921 when he proceeded on leave. The main burden has fallen on his successor Mr. A. H. Ley, C.I.E. The tact, judgment and experience which Mr. Ley brought to his difficult task and his great industry have in the opinion of the Government of India contributed materially to the success of the operations and their expeditious termination.

The Chief Controller (Surplus Stores), in conveying his appreciation of the services of the official staff under his control, has brought to the particular attention of Government the valuable work done by Mr. D. N. Keatinge, one time Controller of Sales, Lahore, Controller of Sales, Calcutta, and lately Deputy Chief Controller (Surplus Stores), and by Mr. P. N. Mukherji, Controller of Surplus Stores Accounts. The Government of India have noticed with pleasure his appreciation of their services.

ORDERED that a copy of the Resolution be forwarded to the Financial Adviser, Military Finance, the Auditor-General, the Military Accountant-General and the Accountant-General, Central Revenues; and that a copy be published in the Supplement to the *Gazette of India* for general information.

Ordered also that a copy of the Resolution be forwarded to all the gentlemen mentioned in it.

Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College—

(a) "Regular," or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the provinces of Bihar and Orissa, Assam and Central Provinces, and those who come out of the Dacca or the Rangoon University as provided for in rule 5.

(b) "Military Class" (only students of European or Eurasian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular Class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry or any Examination equivalent to it.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe. Students who come out of the Dacca and the Rangoon Universities and the candidates from the Central Provinces should apply to the Director of Public Instruction of the respective provinces.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs. A.
Admission fee	20 0
Fees for Summer term	62 8
Athletic Club fee	2 0
Total	... 84 8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, one by the Government of Central Provinces and six candidates by the Inspector-General of Civil Hospitals of Assam, six candidates of the Dacca University by the Director of Public Instruction, Bengal, and two of the Rangoon University by the Director of Public Instruction, Burma. These candidates must possess the qualifications mentioned in rule 2(a). In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the winter term. They must also pay the annual Athletic Club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June :—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 14 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as Regular students.

20. The following are the curricula of the College :—

4. The session for the second year's course extends without a break from the first Monday in November to the middle of September of the following year.

5. It is a residential institution and the students are required to reside in the school premises and must conform to the rules sanctioned by Government. Students may live with their parents or with approved guardians with the special permission of the Principal. The messing charges for Hindu students average about Rs. 10 per month. (b) Ability to write simple English and vernacular.

(c) Fitness for arduous field-work.

If the payment is not made during the month for which it is due, the defaulting student's name shall be struck off the school roll, and he will not be re-admitted until he has paid all arrears, together with any fines which may be due from him and a re-admission fee of Rs. 5.

STATEMENT OF OBJECTS AND REASONS.

The Court-fees Act, 1870, has been in force for over fifty years and there are various anomalies and defects in it, which are a source of conflicting decisions and of inconvenience to litigants. Accordingly in August, 1916, the Government of India addressed the Local Governments, proposing certain amendments in the Act and asking for further suggestions. No immediate action however was taken by the Government of India upon the opinions received.

In 1920, under the Devolution Rules, "Judicial Stamps" became a provincial reserved subject; and in 1922 and 1923 eight local Legislatures amended the Schedules to the Act and also certain provisions in the Act itself, in order to raise additional revenue. The need for an amending Act in the Indian Legislature to deal with the procedure, principle and methods of realising fees has, however, not decreased, but on the contrary has become the more urgent as it is desirable as far as possible to co-ordinate the law prevailing in the different Provinces. The Government of India therefore again addressed the Local Governments in 1923 and received further suggestions from them.

In accordance with the replies received, it was decided to proceed with legislation on the abovementioned lines in the Indian Legislature. The object of the Bill is to revise the whole Act and bring it up to date. Its object is not to increase the provincial revenue from court fees, though possibly the removal of some of the existing anomalies may secure some slight increase. Several amendments which have been recently passed in the Madras Legislative Council and other local Legislatures are incorporated with slight alterations in the Bill.

The First and Second Schedules to the Act have not been amended, except in so far as they deal with Probate, Letters of Administration and Succession Certificates; and paragraph V of section 7, which is concerned with the valuation of immoveable property, has also, except in one comparatively unimportant particular, been left untouched. The main alterations proposed in the Bill are extensive changes in the remaining provisions of section 1 and the entire redrafting of the existing Chapter III A, which deals with Probates and Letters of Administration. It is also proposed to equalise the fees on applications for Probates, Letters of Administration and Succession Certificates throughout India. The main provisions are explained in the following Notes on Clauses:—

Notes on Clauses.

Clause 2.—The definition of “Chief Controlling Revenue authority” is brought up to date.

“Memorandum of appeal” is defined as including a memorandum of cross-objection. This follows section 2 (2) of Madras Act V of 1922, and is designed to meet the hardship mentioned in *Lakhan Singh versus Ram Kishan* (I. L. R., 4 All., p. 93).

“Suit” is defined as including an appeal. This is not intended to change the law on the subject, but to confirm the view adopted in *Sangat Baksh Singh versus Rawat Dijdeo Baksh* (25 Oudh Cases, p. 30) and *Dyal Singh versus Ram Rakha* (15 Indian Cases, p. 463). There are still conflicting decisions on the point.

Clause 7 (a).—The amendment is designed to show that, in an appeal by a defendant, court-fee is payable on interest from the date of the presentation of the plaint to the date of the decree (and not beyond that date), and in an appeal by the plaintiff, on any additional interest claimed by him. There are conflicting decisions in respect of the words “amount claimed”.

Clause 7 (b) and first part of clause 7 (c).—It is agreed that paragraph iv of section 7, which deals with cases in which the plaintiff is allowed to value the relief sought, is very unsatisfactory. The provisions in these clauses include:—

(a) one based on that which was contained in section 2 (b) of Bombay Act I of 1922, namely, that relief should be valued at not less than Rs. 200 in all cases falling under this paragraph;

(b) another based on that contained in section 6 of Madras Act V of 1922, namely, that, in suits for a declaratory decree where consequential relief is prayed and which relate to immoveable property, the fee shall be calculated on not less than one-half the computed value of the property;

(c) another that in a suit for accounts, where the decree is in accordance with the plaint, the defendant, if he appeals, shall not be allowed to put his own valuation on the memorandum of appeal. This follows the decision in *Dhupati versus Perindevamma* (I. L. R. 39 Mad., p. 725), as opposed to the ruling of the Allahabad High Court in *Kanhaiya versus Seth Ram* (I. L. R. 44 All., p. 542); and

(d) another indicating that sub-clause (b) of paragraph iv relates to a case in which the claim of a person applying for the partition of joint family property, etc., is not denied; and by a further paragraph iv a, included in clause 7 (c), it is provided that, where the claim to be a co-parcener is denied, the person shall pay fee on the share claimed. This follows generally the lines of the rulings of the Calcutta and Allahabad High Courts, as opposed to the rulings of the Madras High Court.

Second part of clause 7 (c).—This deals with suits for the cancellation of decrees. The fee in such cases will be based on the value of the property in question. This provision follows section 7 of Madras Act V of 1922.

Clause 7 (e).—This amendment deals with suits for pre-emption, and is intended to meet the grievance alleged in the case of “*Daryao Singh versus Bharat Singh*” (I. L. R. 32 All. p. 19). The intention is that the fee should be computed on the market-value of the property, when, for instance, the property is subject to a heavy mortgage and the suit is only for the equity of redemption.

Clause 7 (f).—Paragraph viii has been redrafted so as to indicate that in suits to set aside an attachment and also in suits under Rule 63 of Order XXI in the Code of Civil Procedure, a fee should be paid according to the value of the attached property or the amount for which the property was attached, whichever is less. (Of. the Privy Council Ruling I. L. R. 35 Cal., p. 292.)

Clause 7(g).—It is generally recognised that a change is necessary in paragraph ix of section 7, which deals with suits for redemption and foreclosure. Amendments have been made accordingly both by the United Provinces and the Central Provinces Legislative Councils. The provision in the Bill is based on section 4 of the Central Provinces Act I of 1923. A fee computed merely on the principal money is quite inadequate in suits for foreclosure.

Clause 8.—The intention of this clause is that the amount at which the plaintiff may value his relief shall not be arbitrary, and that the Court in which the suit or memorandum of appeal is filed shall be able at any stage of the suit or appeal, as the case may be, to check the valuation and to direct that additional fee shall be paid, failing which the part of the suit in question shall be dismissed. There have been conflicting rulings in respect of the power of the Courts to check the valuation and to demand additional fees.

Clause 9.—It has been found by experience that very exorbitant claims are made in references in land acquisition cases, because no fee is charged on such references. The proposal in this clause is designed merely to discourage exorbitant claims. No fee will be charged except in cases where the amount claimed exceeds double the amount subsequently awarded by the Court. The provision regarding appeals in such cases remains unchanged. The proposal in this clause involves the amendment of paragraph xxii of section 19.

Clause 11.—Section 11 has been redrafted in order to increase its scope, and to show that the fee is payable on the additional mesne profits found, for example, in a final decree under rule 12 (2) of Order XX in the Code of Civil Procedure. The second paragraph of section 11, which is obsolete, is omitted.

Clause 12.—This amendment makes it clear that the finality in sub-section (1) of section 12 does not apply to cases in which the classification of the suit is not correct. There have been conflicting rulings on this point.

Clause 13.—Section 17 regarding multifarious suits has occasioned considerable difficulty, especially in respect of the words "distinct subjects." The section has been redrafted in order to deal with this difficulty. For "distinct subjects" the words "separate and distinct causes of action" have been substituted.

By *Clause 14* a new Chapter IV, regarding Probates and Letters of Administration, has been inserted in the Act in the place of the existing Chapter III A, which has proved to be unsatisfactory. The new Chapter is based on the existing Chapter, but the order of the sections has been changed, and several additions have been made, particularly in new sections 19C, 19F and 19G. The existing provisions were introduced partly in 1875 and partly in 1899, and the two parts of the Chapter do not appear to have been properly co-ordinated.

The more important changes made are mentioned briefly below :—

New section 19A is based on the first part of existing section 19H. Except, in regard to the penalty under new section 19G action is to be taken in this Chapter by the Collector and not by the Chief Controlling Revenue authority. It is provided, therefore, in new section 19A that the High Court (as well as other Courts) shall send intimation direct to the Collector.

New section 19B enables the Collector to summon witnesses and compel the production of documents, as required.

New section 19C describes the circumstances in which probate may be granted. It provides for the grant of probate in certain cases before the fee on the net value of the estate has been actually paid; and also lays down that no fee shall be paid on trust property. The fee is to be calculated on the value of the estate of a deceased person at the time of his death, except when the application for probate is made more than a year after the death of the deceased, in which case it is to be calculated on the value at the date of application owing to the difficulty of ascertaining the value at the date of death. In view of the above concession, six per cent. simple interest on such fee is also to be paid in all cases from the date of death to the date of payment. The section further lays down that a member of a joint Hindu family under Mitakshara Law, if he applies for probate in respect of the estate of a deceased co-parcener, must pay fee on the share of the deceased; there have been conflicting rulings on this point, and the proposal is very generally accepted by the members of the Hindu community consulted. The last provision in the section is that full deductions under Annexure B from the value of the estate shall be made only when the application is for probate of the whole estate.

New section 19D is based on the latter part of existing section 19H; but it provides that, instead of the Collector moving the Court, the applicant himself may, if so disposed, move the Court to make an inquiry as to the value of the estate. Sub-section (6) provides that the Court may pass orders regarding the costs of an inquiry.

New section 19E is the existing section 19C.

New sections 19F and 19G correspond fairly closely with existing sections 19A and 19E. They deal with the cases where the valuation on which fee has been paid is afterwards found to be incorrect. Similar provisions have been made for the two cases, namely, the case where too much was paid at first and the case where too little was paid at first. The stringency of the law contained in the existing section 19E has been considerably modified; and the only penalty imposed upon a person who has paid too low a fee in the first instance, unless he contumaciously refuses to pay the balance of fee due from him, will be an additional six per cent. simple interest on the balance. A time

limit of three years has been included, alike in the case where too little and where too much was first paid. The procedure for remission, if too high a fee has been paid, is simplified.

New sections 19H and 19I follow existing sections 19J and 19K with minor alterations.

Existing sections 19B, 19D, 19F and 19G, which are no longer required, are omitted.

Clause 17.—This includes a provision based on section 149 of the Code of Civil Procedure, as it is considered more appropriate to include it in the Court-fees Act than in the Code of Civil Procedure. Section 149 of the Code of Civil Procedure is repealed by the Third Schedule.

Clause 18.—This brings into two sections the rule-making provisions, which are now scattered over seven sections in four different Chapters of the existing Act, namely, sections 19H, 20, 21, 22, 23, 27 and 34. Chapter IV and sections 27 and 34 are accordingly repealed.

Additional rule-making powers are accorded in new section 30B with reference to the granting of an allowance for used, damaged or spoiled stamps. Sub-section 2) of this section is based on section 53 of the Indian Stamp Act, 1899.

Clause 19.—This extends the powers of Local Governments to reduce or remit fees.

Clauses 20 and 21.—These clauses amongst other alterations substitute for Articles 11 and 12A of the First Schedule of the Court-fees Act, 1870, a new Fourth Schedule dealing with the fees to be paid for Probates, Letters of Administration, and Succession Certificates. The object of these amendments is that there should be a uniform rate of fees for probates, etc., throughout India. It has been brought to the notice of the Government of India that certain difficulties are arising from the different fees now leviable. It is pointed out by the High Court of Calcutta that "in the case of Probate and Administration duties it would be advantageous if the rates could be kept uniform throughout India, and it is a matter for consideration whether the Central Legislature might not properly be asked to take measures to ensure such uniformity." Probate in certain cases extends to the whole of India, and it is, therefore, desirable that the rate of fees for probates should be the same throughout India. The provisions of the last paragraph of section 99 of the Probate and Administration Act, 1881, also point to the same conclusion. The provisions contained in the Bill apply the rates in force in Bengal, which rates are also enforced in Bihar and Orissa, and in Assam, to the whole of India, except in the case of Succession Certificates, where the uniform rate proposed will probably secure a less revenue than in the case of the Bengal rate.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 25th March 1924 :—

No. 22 OF 1924.

A Bill to validate certain insufficiently and incorrectly stamped instruments.

WHEREAS it is expedient to make provision for validating certain insufficiently and incorrectly stamped instruments; It is hereby enacted as follows :—

1. (1) This Act may be called the Indian Stamp (Validating) Act, 1924 ;

(2) It extends to the whole of British India, including British Baluchistan, the Southal Parganas and the Pargana of Spiti ; and

(3) It shall come into force on the 192 .

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

(a) 'the old Act' means the Indian Stamp Act, 1899.

II of 1899.

(b) 'the new Act' means the Indian Stamp (Amendment) Act, 1923.

XLIII of 1923

(c) 'instruments' means promissory notes as defined by section 2 (22) of the old Act and also the documents mentioned in Articles No. 19, No. 36, No. 37 and No. 52 of Schedule I to the old Act.

(d) 'incorrectly stamped' means not stamped with stamps of the proper denomination.

Saving of instruments insufficiently stamped.

3. Notwithstanding the provisions contained in the new Act instruments executed on or before the thirty-first day of December, 1923, and validly stamped in accordance with the provisions of the old Act shall not be invalid or inadmissible in evidence by reason only of their being insufficiently or incorrectly stamped under the new Act.

Insufficiently stamped instruments to be deemed duly stamped under the new Act.

4. The instruments mentioned in section 3 above shall be admitted in evidence for any purpose by any person having by law or consent of parties authority to receive evidence, and shall be acted upon, registered or authenticated by any such person or by any public officer, as if they were duly stamped under the new Act.

STATEMENT OF OBJECTS AND REASONS.

The Indian Stamp (Amendment) Act of 1923 is said to have received the assent of the Governor General on the 1st October 1923. The Act was, however, published in the Gazette of India only on the 6th October and in the Fort Saint George Gazette on the 16th October 1923. It is not stated definitely when the Act comes into operation. Under section 5 (1) of the General Clauses Act, 1897, it would, therefore, come into operation on the day on which it received the assent of the Governor General. Documents executed between the 1st and the 16th October would in all probability have been stamped under

the old Act. A suit to enforce such promissory notes for more than Rs. 250 and executed between these two dates would be unsustainable as the document could not be put in evidence and stamp penalty could not be levied therefor. (*Vide* sections 35, 40 and 41 of the Stamp Act.) Such cases would result in serious hardship, and it is proper that legislative sanction must be given to such documents. It is but reasonable that some time must be allowed to elapse before the public can be expected to become aware of the provisions of the Amending Act. The object of this Bill is, therefore, to validate all such documents executed before the 31st December 1923, provided they are validly stamped under the old Act. Provision is also made in the Bill to validate such documents executed before the 31st December 1923, even if they are not stamped with stamps of the proper denominations as required by the rules made under the Amending Act.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 25th March 1924 :—

No. 24 OF 1924.

A Bill further to amend the Indian Evidence Act, 1872.

WHEREAS it is expedient further to amend the Indian Evidence Act, 1872 ; It is hereby enacted as follows— 1 of 1872.

Short title and commencement.

1. (1) This Act may be called the Indian Evidence (Amendment) Act, 1924 .

(2) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Amendment of section 68, Act 1 of 1872.

2. To section 68 of the Indian Evidence Act, 1872, the following *Explanation* shall be added, namely :

“ Explanation.—Proof of execution under this section may be presumed to have been made where the attester proves his presence at the execution or the acknowledgment thereof by the executant.”

STATEMENT OF OBJECTS AND REASONS.

In 35 Madras 607 the Privy Council have decided that the word “attested” within the meaning of section 59 of the Transfer of Property Act, means actual seeing of the execution by the attester. Section 68 of the Evidence Act gives the mode of proof to be given of documents that require by law to be attested. The decision of the Privy Council has caused considerable difficulty in administering justice even when a party is *ex parte* or admits execution, if the attestors are gained over. A Bill to amend section 114 of the Indian Evidence Act to serve the end in view was opposed by the Government on 21st February 1924 as not suitable and disallowed. But it was commonly felt that a remedy for this state of things was necessary. The previous attempts have not been fruitful also. It is proper that the needed amendment must be made to section 59 of the Transfer of Property Act or section 68 or section 114 of the Indian Evidence Act. It is submitted that though the substantive law may continue as before, the proof needed may be modified so as to give scope for justice being rendered where formal impediments stand in the way. Difficulties have arisen in enforcing documents offered to give immovable property security. The Bill is intended to serve the ends of justice.

The scope and principle of the Bill is to find the suitable amendment. It might be noted that in section 59 of the Transfer of Property Act the words used are “signed by the mortgagor and attested”.

The annual interest is Rs. 37,629, which is banked with the Imperial Bank of India. The year opened with a cash balance of Rs. 20,652-3-6 and closed with one of Rs. 18,961-12-9.

III. **Election to vacancies, etc.**—(1) The annual election of wards was held on Monday, the 8th January. For the 24 vacancies advertised 61 applications were received, and 24 girls were elected on the recommendation of a sub-committee consisting of the Ven. J. Godber, the Rev. T. Van der Schueren, S. J., the Rev. E. B. Joyner, and Mr. Maurice Remfry. Of the girls elected, 9 were placed in the Loreto Convent, Entally, (1 in the 1st, and 8 in the 2nd, Boarding School), 4 in the Loreto Convent, Asansol, 6 in the Calcutta Girls' High School, 3 in the Pratt Memorial School, 1 in St. Thomas' School (late Calcutta Free School) and 1 in the Old Church Parochial Home.

(2) Of the 15 girls withdrawn during the year, 11 had attained the age of 17, the limit ordinarily allowed under the rules, and 4 were withdrawn for other reasons.

(3) Of the girls who had been withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, 2 have joined the Bengal Telephone Company, 4 have found employment as shorthand typists in different firms, and 1 is married.

(4) At the close of the year there were 92 wards on the rolls against 83 in previous year. They were distributed as follows :—

(5) The following table affords particulars as to the class and religion of the wards at the close of the year :—

3. Those who have both parents alive ...	8	1	4	13
Total ...	57	24	11	92

(6) The health of the wards were generally satisfactory. There were no deaths.

IV. Education and maintenance.—(1) The nature of the education given to the wards was that prescribed for Higher Grade Schools under the Code of Regulations for European Schools in Bengal, and in a few cases, that for Secondary Schools.

(2) The Governors are anxious that their wards should not be allowed to drift when they leave school, and have accordingly asked the Visiting-Governor to report in consultation with the School Authorities and the girls themselves, who have attained or are about to attain the age of 15, some definite proposals, where this seems desirable, so that the last two years of their school-life may be spent to the best advantage and be a preparation for earning a living.

(3) Three wards were sent up for the Junior Cambridge Local Examination in December 1922, and all passed. Two were sent up for the Higher Grade School Final Examination, and both passed. Another girl went up for the Commercial Course Examinations, and passed. Some wards appeared at the Cambridge Local Examinations held in December 1923; the result of which are not yet known.

(4) Under the rules a girl is not ordinarily allowed to remain on the Fund after the age of 17, when an outfit of Rs. 100 is generally given on application, to enable her to make a start in life. In cases where wards wish to be trained as teachers, and have the support of the School Authorities, or where some other, special training is recommended, or they are preparing for higher examinations, some extension of the period of benefit is generally allowed. One girl was granted a year's extension to enable her to learn dress-making in school, another was granted a year's extension and placed in the school hospital for training as a nurse; a third was granted a few months' extension to complete her course in shorthand and typewriting.

(5) The monthly average cost for the education and maintenance of each ward amounted to Rs. 25-9-9 against Rs. 25-2 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below :—

	1923.			1922.		
	Rs.	A.	P.	Rs.	A.	P.
Education and maintenance ...	32,882	8	0	31,226	8	0

Total ...	38,495	12	9	36,458	4	3

V. Inspection.—The Most Rev. the Lord Bishop of Calcutta was appointed Visiting-Governor for the first-half, and Mr. Maurice Remfry for the second half, of the year. The Bishop saw all the wards with the exception of 4 at Kidderpore House, and 1 at La Martinière. Mr. Remfry visited all the schools in Calcutta having Bruce wards, except St. Thomas' School (late Calcutta Free School) and La Martinière. They found that, on the whole, the wards looked fairly well. Mr. Remfry remarked that the wards had very little idea of the purchasing price of money. Although quite a number stated that they made their own clothing, not one could state the cost. He suggested that it would be exceedingly desirable that an effort should be made to give some practical training to the wards, some of whom had not the advantage of parents to give this instruction, and others the disadvantage of inefficient home management.

Mr. W. W. Hornell, late Director of Public Instruction, Bengal, visited the Loreto Convent, Asansol, in November. He found all the wards were in excellent health and they seemed to be thoroughly happy.

VI. Meetings.—Four meetings were held during the year, but there was no resolution of general importance calling for special mention.

SIMLA, THE 6TH MAY 1924.

RESOLUTION—No. S.-217.

In their Resolution No. 81-D., dated the 15th November 1919, the Government of India announced their intention to constitute a committee to deal with the proposal made by the Indian Industrial Commission for the creation of an Indian Stores Department. The terms of reference and personnel of this Committee were announced in Resolution No. B.-506-11, dated the 5th December 1919. The Committee were directed to enquire and report on the measures required to enable Government Departments to obtain their requirements as far as possible in India, what central and local agencies should be constituted for the purchase and inspection of such requirements and what modifications of the Stores Purchase Rules would be required to give effect to their recommendations. This Committee submitted its report to the Government of India on the 19th July 1920.

2. The Committee were unable to agree in regard to the modifications which should be made in the Stores Purchase Rules and certain alternative recommendations were offered. After careful consideration of these alternatives the Government of India arrived at certain provisional conclusions, which, together with a revised draft of the Stores Purchase Rules, were sent to the Provincial Governments for their consideration and advice. In the meantime the purchase of stores by Governors' Provinces had ceased, under the reformed constitution, to be a central subject. It was accordingly made clear that the revised rules under consideration were intended for application only to the Government of India and to Provinces other than Governors' Provinces. On receipt of the replies from the Local Governments the revision of the rules was further considered by a Committee of the Legislature (the Railway Industries Committee) which had been appointed in pursuance of a Resolution adopted by the Legislative Assembly on the 2nd March 1922. The rules approved by this Committee were submitted to the Secretary of State for his approval.

3. The Secretary of State in Council has now approved the rules appended to this Resolution, which will henceforth regulate the purchase of stores by all Departments and officers of the Central Government and of the Local Governments and Administrations other than those of the Governors' Provinces. The main features of the new rules consist in the assertion of a more definite preference for stores produced and manufactured, wholly or partly, in India, an important extension of the power to purchase imported stores and the introduction of a central purchasing agency in India, namely, the Indian Stores Department. This Department, as announced on the 10th December 1921, was created on a temporary basis with effect from the 1st January 1922, on which date the Chief Controller of Stores assumed charge of his duties and proceeded to formulate a detailed scheme of organisation. This scheme, after consideration by the Government of India, was submitted to the Secretary of State who has now sanctioned the constitution of the Indian Stores Department on a permanent basis.

4. The revision of the Stores Purchase Rules and the establishment of the Indian Stores Department are the direct outcome of the policy which aims at the encouragement of the industries of the country without sacrificing economy, and the Government of India take this opportunity of impressing upon all Departments and officers purchasing stores the importance which they attach, not only to a strict adherence to the letter of the rules, but also to a loyal observance of the policy underlying them, as stated in the preamble to the rules. The observance of this policy, coupled with utilisation to the fullest possible extent of the services of the Indian Stores Department, will, it is confidently anticipated, promote both the objects which the Government of India have in view, namely, encouragement of manufacture in India and economy in the purchase of Government stores.

ORDER.—Ordered that this Resolution be communicated to all Local Governments and Administrations, the several Departments of the Government of India (including the Financial Adviser, Military Finance), the Private and Military Secretaries to His Excellency the Viceroy, all Heads of Departments subordinate to this Department, the Auditor General and all Accountants General, the Comptroller of Assam, Deputy Accountant General, Central Revenues, Delhi, the Financial Adviser, Posts and Telegraphs, and the Audit Officer, Indian Stores Department.

Ordered also that the Resolution be communicated to the High Commissioner for India and to Chambers of Commerce and that it be published in the Supplement to the *Gazette of India* for general information.

A. H. LEY,

Secretary to the Government of India.

RULES FOR THE SUPPLY OF ARTICLES FOR THE PUBLIC SERVICE.**PREAMBLE.**

The policy of the Government of India is to make their purchases of stores for the public service in such a way as to encourage the industries of the country, so far as is consistent with economy and efficiency. In pursuance of this policy the following rules are prescribed, with the sanction of the Secretary of State, for the supply of articles for the public service. These rules, which are subject to any instructions regarding specific articles which have been or may be made by the Government of India with the sanction of the Secretary of State from time to time (e.g., those relating to the supply of stationery and printing stores for the public service), supersede all previous orders which are not explicitly continued.

The rules are applicable to the Government of India and to provinces other than Governor's Provinces.

RULE 1.—Articles manufactured in India from Indian materials.

All articles which are produced in India in the form of raw material, or are manufactured in India from materials produced in India should, in preference to articles not manufactured in India or wholly or partly manufactured in India from imported materials, be purchased locally, provided that the quality is sufficiently good for the purpose, and the price reasonable.

Note.—Although a strict comparison of prices is not enjoyed by this rule, it is essential in the interests of economy that the purchasing officer should take into consideration, so far as may be possible, the price at which articles of similar quality not manufactured or produced in India can be purchased at the time.

RULE 2.—Articles manufactured in India from imported materials.

Articles wholly or partly manufactured in India from imported materials should also be purchased in India in preference to articles not manufactured in India, provided that the quality is sufficiently good and the price not unfavourable.

RULE 3.—Articles which are not manufactured in India.

Articles which are not manufactured in India should be obtained by indent upon the Store Department, London, except in the following cases:—

- (a) When the articles are already in India at the time of order or are already on their way out, and their price and quality are not unfavourable as compared with those at which similar articles could be obtained through the Store Department, London, and the cost of the supply does not exceed the limits prescribed in Rule 11. When the total value of the articles required is trifling it is generally desirable to purchase them locally.
- (b) In the case of important construction works let out on contract, articles not manufactured in India required for the construction of such works may be supplied by the contracting firm subject to the following conditions:—

- (v) That when test or inspection of the plant or machinery during manufacture or before shipment is necessary or desirable arrangements are made for such test and inspection to be carried out by the India Store Department, London.

RULE 10.—Firms from which iron and steel may be bought in India.

Important iron and steel work, if purchased in India, should only be obtained from firms approved by the Chief Controller of Stores, Indian Stores Department, and entered in a schedule as corrected from time to time by that officer (List III).

Election case No. 5 of 1924.

A. Suhrawardy

versus

Maulvi Wahed Hossain.

Report.

This was a petition of Dr. Suhrawardy against the election of Maulvi Wahed Hossain from the Barrackpore Municipal Mahomedan Constituency. The ground taken was that his nomination paper was improperly rejected by the Returning Officer.

On the petition coming up for hearing Dr. A. Suhrawardy filed a petition asking our leave to withdraw from his election petition. He submitted that he should not be made liable for any costs in this case. Maulvi Wahed Hossain consented to the petition of withdrawal and did not press for costs.

There were no other parties to the petition.

The only question was whether the application was induced by any bargain or consideration which ought not to be allowed.

It appeared that Dr. A. Suhrawardy was elected to the Bengal Legislative Council from another constituency and he did not wish to press the present petition.

We examined Dr. Suhrawardy and Maulvi Wahed Hossain and were satisfied that the application was not induced by any bargain or consideration. We therefore allowed the petition to be withdrawn.

The petition was allowed to be withdrawn on 1st February 1924, the date fixed for the case. Notice of the withdrawal of the election petition of Dr. A. Suhrawardy was published in the *Calcutta Gazette* of 20th February 1924. No one has appeared up to now and applied to be substituted as a petitioner in place of the party withdrawing and continue the proceedings. We therefore submit the record of the case with our recommendation that the parties should bear their own costs.

G. N. ROY,

President.

NOTIFICATION.

No. 6983A.—The 31st May 1924.—The following provisional rules to regulate the recruitment by examination of certain of the provincial and other services in Bengal during 1924 are published for general information. A separate announcement will be

made of the dates and place of the examination. Existing orders regarding the partial recruitment of any of these services by promotion will remain unaffected :—

RULES.

1. **Extent of application.**—These rules apply to the direct recruitment of the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, Income-tax officers recruited by the Government of Bengal, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

2. **Method of direct recruitment.**—Direct recruitment for the services mentioned above will be made on the results of a competitive examination, but Government may reserve the right to appoint by nomination from the list of qualified examinees individual candidates belonging to the backward classes and minorities if the results of the examination fail to secure adequate representation in these classes or communities, and in the case of the Upper Division of the Secretariat Service to fill European and Anglo-Indian vacancies by selection from outside India. The Commissioner of Income-tax also reserves the right to make appointments by nomination to posts for which special, technical or linguistic qualifications are essential.

3. **Choice of service.**—Each candidate for direct recruitment will be required to specify in his application the service or services for which he desires to compete, placing these in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the various services.

4. **Communal representation.**—The Examining Board will submit to Government separate lists showing (a) the Muhammadan candidates, (b) candidates belonging to the backward classes and other minorities, and (c) all others; and appointments will be made from these lists in the order of merit of the candidates, provided that the proportion of appointments to be filled by the Muhammadan candidates shall in no case be less than one-third if there are qualified candidates available, and that Government reserve the right to nominate any qualified candidate in list (b). In the Upper Division of the Secretariat Clerical Service, the due proportion of Muhammadans is secured by appointing a Muhammadan to every third vacancy in each office if a qualified candidate is available.

5. **Notification of vacancies.**—The number of appointments to be made to these services will be notified as soon as possible after the 1st July. The examination will be held towards the end of the year.

Schedule II and shall certify the moral character of each candidate so nominated. In making these nominations due regard should be paid to the desirability of different classes and communities being represented in the public service.

11. Selection certificates.—In order to make the appraisalment of individual merits of candidates, as far as possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final. No candidate shall be admitted to the examination unless he holds such a certificate.

Provided that in making their choice the Selection Committee shall give all possible consideration to backward class candidates and other minorities and shall call for nominations from the heads of Colleges or Commissioners of Divisions if the number of nominated Muslim and Hindu candidates does not reach the proportion of one-

REGULATION OF THE ARMY AND AIR FORCE.

[15th April 1924.]

WHEREAS the raising or keeping of a standing army within the United Kingdom in time of peace, unless it be with the consent of Parliament, is against law :

And whereas it is adjudged necessary by His Majesty and this present Parliament that a body of land forces should be continued for the safety of the United Kingdom and the defence of the possessions of His Majesty's Crown, and that the whole number of such forces should consist of one hundred and sixty-one thousand six hundred, including those to be employed at the depots in the United Kingdom for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within His Majesty's Indian possessions :

And whereas under the Air Force (Constitution) Act, 1917, His Majesty is entitled to raise and maintain the air force, and it is judged necessary that the whole number of such force should consist of thirty-five thousand, including those employed as aforesaid but exclusive of the numbers serving as aforesaid, and the provisions of the Air Force Act are due to expire at the same dates as the provisions of the Army Act :

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in His Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid :

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of His Majesty's forces by sea :

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm, by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm ; yet, nevertheless, it being requisite, for the retaining all the beforementioned forces, and other persons subject to military law or to the Air Force Act, in their duty, that an exact discipline be observed and that persons belonging to the said forces who munity or stir up sedition, or desert His Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military or air force discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow :
